| 04/17/2011 10:21        | TN0141 Pam Berning - 731-616-2159. Ms. Berning advised that she has been taking her friend back and forth to Nashville to the airport. As she came back through this morning she saw a female's black tennis shoe on the entrance ramp of a road that connects to Interstate 40 going WB just across the TN river bridge. Ms. Berning did not know if the shoe could be related to the case but wanted to make someone aware of it.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | TBI Headquarters<br>901 RS Gass Boulevard<br>Nashville TN 37216 US<br>800-824-1004 | Open   | Routine    |          |               |
| 04/17/2011 10:17        | TN0140 Ben Nelson - 612-282-6002. Mr. Nelson advised that at 1:17 a.m. this morning he and a group of friends were traveling through Tennessee to Minnesota. Mr. Nelson stated they stopped at a gas station/McDonald's at 6137 Epps Mill Road in Christiansburg, TN (615) 904-7303. There were two white male subjects in the McDonald's in their early 30's. One subject had blood on his jeans and the other was wearing a camo t-shirt. The subject wearing the jeans was 5'8 to 5'10 and had darker hair. The subjects were possibly driving a newer model two-tone Ford SUV.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | TBI Headquarters<br>901 RS Gass Boulevard<br>Nashville TN 37216 US<br>800-824-1004 | Open   | Routine    |          |               |

| 04/17/2011 09:44        | TN0138 Linked to TN0139. On April 15, at approximately 1727, Officer Nicholas, Officer McCready, and Lt. Hetherington went to the residence of Ricky L. Frye, at 89-B Natchez Trace Drive, Lexington, TN. Upon arrival, Stephany Bryum (his live in girlfriend) answered the front door. Ricky was in bed asleep due to working the night shift at Wal-Mart in Lexington. Ricky got up and spoke with Hetherington while Nicholas and McCready walked around the outside of the residence. Ricky advised that he works at Wal-Mart from 10PM - 7AM. He stated his days off are Sunday and Monday. He also stated he always stops at the Shell station and buys beer before going home. Stephany said that he comes straight home, drinks his beer, then goes to bed, which is his regular routine. I contacted Pam Scott, security at Wal-Mart, she stated that he arrived at Wal-Mart for work on Tuesday night at 2027 hrs and left at 0707 Wednesday morning. On Wednesday night he arrived at work at 2047 hrs and clocked out at 0723 hrs. Ricky gave permission to me to tour his residence. I was able to check all closets, bathrooms, bedrooms, kitchen, and living room. He also gave permission to Nicholas and McCready to check his vehicles. Lt. | 04/17/2011 09:04        | TN0021 Bank officials advised SA Dicus and Del Ricky Inman that there is no bank cards on her accounts, just a check book. There was around \$90.00 in the account. She just deals with cash and checks.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | TBI Command Post                                                                   | Closed |            |          |               |
| 04/17/2011 01:22        | TN0137 Mrs. Bobo called SA Brent Booth and said she and her husband remembered an old boyfriend of Holly's that was very strange and wanted to report this info. His name is Wallace Hall and he is believed to be in the military now, he was married to a Kate Tomlin and they have a child. Kate's parents are Allen and Lori Tomlin and Kate now lives with them. They don't know his exact whereabouts at this time. His mother did live around the Lost Creek area in either Decaturville or Perryville, they did not know her name.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | TBI Command Post                                                                   | Open   | Routine    |          |               |
| 04/16/2011 21:01        | TN0136 SA Jon Walker spoke with Rhonda Kates at approximately 7:30pm on 4-16-11 to follow up on her initial call. Kates said she was turning off Spring Hollow on Bunches Chapel and there is a small pull off there. Kates said she observed a newer model black jeep with blacked out windows. Kates said she noticed the driver was on his cell phone and she thought he was wearing camo. Kates said she had never seen this jeep before in the area and there was nothing distinctive about it.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | TBI Command Post                                                                   | Open   | Routine    |          |               |
| 04/16/2011 20:38        | TN0135 Decatur Co. 911 received a tip from an anonymous caller, 731-446-0456. This caller wanted us to check on Mark Clark on Holly's Facebook. There is a page called Prayer for Holly Bobo. The caller told SA Jon Walker she has been monitoring this page. Mark Clark's original photograph showed him with a knit stocking cap and a camo shirt. The caller said he now has on a suit. The caller said originally Clark had eight friends and now he has ten. The caller said Clark has not said anything negative about Holly but she said "his eyes look dead". She said she had extra bad feelings about him.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | TBI Command Post                                                                   | Open   | Routine    |          |               |
| 04/16/2011 20:21        | TN0134 Decatur Co 911 received a call from Sigormee Colby from Orlando FL 407-319-0577. Ms. Colby was calling to bring our attention to Holly Bobo's Facebook blogs. Colby said everyone blogging on here is in support of Holly and her family. Saul is making comments on the blog like Holly ran off with another man, Holly has eloped, people should stop looking for her, she is okay, it is all staged. Saul is also making comments about how tangle the world is. Colby believes he either knows something or is acting out. She just thought this was bizarre.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | TBI Command Post                                                                   | Open   | Routine    |          |               |
| 04/16/2011 18:44        | TN0133 Decatur Co 911 received a call from Rose A. Rimmer (now Hinchey) 731-733-1837. Ms Hinchey reported she had told Officer Dale King 2 or 3 years ago that a man was stalking her and had said he wanted to take her out into the woods and tie her up. Hinchey could not remember the man's name. Sheila Carver passed this information to SA Jon Walker and informed SA Walker the male's name was Paul Love and he was a volunteer fireman here. Carver said he lived on Lindsey Rd. I located Love at 1117 Lindsey Rd. and discussed this matter with him. Love stated he does not remember anyone from law enforcement contacting him about this. Love said on Wednesday April 13th he left home at about 4:30am like always and traveled to Jackson to work. Love said he was the supervisor of operations at David Joseph a subsidiary of Gardeau Steel. Records need to be checked the first of the week to verify he was at work.                                                                                                                                                                                                                                                                                                                                         | TBI Command Post                                                                   | Open   | Routine    |          |               |

| 04/15/2011 18:32 | TN0132 | Friend of the family, Jessica Deer, remembered that last Friday she ran into Mitchell Wood and he indicated that he quit being a volunteer searcher and firefighter because they "disrespected" him, did not call him out, etc. However, after Holly went missing, she saw Mitchell in the search party on Wednesday. She also indicated that Mitchell has a history of being obsessive and stalking his ex girlfriends. TBI Agent Terry Dycus has been involved in interviewing the Woods family and should get this information. Separately, mom (Karen Bobo) remembered that Holly had said that (cousin, country singer Whitney Dinkins) song lyrics, "So Sorry Mama" were about Mitchell to her. Mom stated the song is about a bad boy that a girl is attracted to but knows he's trouble and so tries to stay away from him. This was said during the time period that Holly was pursuing Drew and Mitchell was pursuing Holly. | 381 Swan Johnson Darden TN                                                         | Open   | Routine                                                                                  |

| 04/16/2011 17:01 | TN0102 | On April 16, 2011 at approximately 1540, SA Clayton Goldsmith of the FBI and SA Joe Walker of the TBI went to TBI went to 1264 Yellow Springs Rd, Holaday and spoke with Miller. Miller was told we were investigating the disappearance of Holly Bobo and Miller was asked where he was yesterday. Miller said he was turkey hunting alone on Conrad Ridge Rd on the property of Lloyd Conrad. Miller said he came of the woods and Deputy Johnson of the Decatur County SO was there. Miller said when he got home he realized he had lost his hunting chair and a decoy. Miller said he and a friend Jason Markowski went back and retrieved the chair and decoy and he throw these items in his trunk and left. Lead investigated and agents feel comfortable to close this lead.                                                                                                                                                  | TBI Command Post                                                                   | Closed |                                                                                          |

| 04/16/2011 13:14 | TN0121 | 4/16/11 approx 1:12pm LEIC Bryson rec'd a phone call from Nancy Nelson 580 862-7691(H), 580 852-7682 a school teacher of 38 yrs and she states that last night while praying she had a vision of a trailer (light in color, w/ a slightly dark roof) sitting on a slight incline between some trees cut out just for the trailer. On the back side of the trailer was a freshly planted tree on the south side and in that same area was a freshly dug hole near the skirting of the trailer that lead under and behind the skirting back into the trailer and she feels she may be inside or in the hole outside near the skirt of the trailer.                                                                                                                                                                                                                                               | TBI Headquarters<br>901 RS Gass Boulevard<br>Nashville TN 37216 US<br>800-824-1004 | Open   | Routine |                                                                           |
| 04/16/2011 13:12 | TN0130 | PIO Kristin Helm received an email from an individual by the name of Darlene Geary, email address bgeary@sboglobal.net. The following is the message of the email. "Hello, My name is Mrs. Geary. I live in CA. I don't know if this will help or not but I wanted to share with you a dream I had about a girl that looked just like Holly Bobo. I had this dream at least a year or more ago. A girl, which fits Holly's description, was stolen from her house. She was taken and kept in a hidden cave by a body of water. I saw a beach line also. She was stolen for human trafficking. I remember the name Holly and this girl looks just like the girl in my dream. I hope you find her safe and I will be praying for her safe return to her family. I have never met Holly or her family but I have lost a child and it's heartbreaking." | 04/16/2011 12:50 | TN0120 | LEIC Stanfill took a call on 4-16-2011 at 12:50 pm from Beth H'pton ph. (731) 549-7764. Beth stated she has a friend who has been searching for Holly. This friend wanted to remain anonymous and asked Beth to call TBI. Beth stated that her friend got suspicious of some boys (near Holly's age) who live in the area being searched because he did not see them helping in the search. The boys live near Pugh Rd in the Yellow Springs area. One of the boy's names is Cory Williams. Beth stated that he is known to use drugs and has been seen with Holly in the past. Beth said that the Father of the boys owns a Saw Mill and owns several vehicles. Beth stated that her friend told her that he has seen drug paraphernalia and portable meth labs in the area near where some of the evidence has been found.                                                                   | TBI Headquarters<br>901 RS Gass Boulevard<br>Nashville TN 37216 US<br>800-824-1004 | Open   | Routine |                                                                           |
| 04/16/2011 12:39 | TN0125 | Anthony (the cousin of the victim's father) called in to the FBI stating there's a parade in Holiday TN today across the road from the search area. Anthony's friend, Wayne Holiday is at the parade and noticed an old abandoned house that has been empty for a long time. But something within the last 5 days, new plywood boards have been nailed up on the windows that weren't there before. That's all the information he had, no #s or anything.                                                                                                                                                                                                                                                                                                                                                                                                                                      | TBI Command Post                                                                   | Open   | Routine |                                                                           |

| 04/18/2011 12:30 | TN0118 | Debbie Harris, (731)878-7053 c, 731-287-1359 h, advised that a Glen Adams was posting on site concerning missing Bobo. Caller was concerned because of some statements on his site. Caller advised he had listed that he was a fireman, woodsman, hunting, hiking and gravedwiser on his facebook. He has a blog on GlenAdams.blogspot.com. SAC Powell requested that LEIC Purviance review his facebook and blogspot for any pertinent information.                                                                                                                                                                                                                                                                                                                         | TBI Headquarters<br>601 RS Gass Boulevard<br>Nashville TN 37218 US<br>600-824-1004 | Open Routine     | LEIC Purviance               |
| 04/18/2011 12:24 | TN0117 | 4/16/11 approx 1135 LEIC Bryson rec'd a tip from a caller at 407 318-0574 about a Doug Saul who is on a face book blog (crime news) talking about the missing person Holly Bobo and how he hates women. He states she has a 2nd boyfriend and that is who she ran away with and not the 1st boyfriend. She is embarrassed because he is older and a friend of the family. This is what happens and young girls do this because it is like eloping. They make it seem like abduction so the parents are on the wrong track, and I'm sure she is fine. Girls do this all the time to disobey parents and this is what happened.                                                                                                                                                | TBI Headquarters<br>601 RS Gass Boulevard<br>Nashville TN 37218 US<br>600-824-1004 | Open Routine     |                              |

| 04/18/2011 11:19 | TN0122 | Christy Blackstock came to CP with cellphone 731-733-6400 and home number of 731-847-4843. She stated to SA Art Viveros and SAC John Mehr that Stacy Rice works at the Tip Top convenience store on Hwy 60 in Persimmon and is said to know about a Roger Thornburg who knows something about Mexicans involved in drug activity in Decatur County and law enforcement had prior knowledge before making contact with Roger Thornburg. Local law enforcement tried to locate Roger about the Stacy Rice subject but failed. Christy knew the same info as Thornburg. Approximately 1 hour ago contact was made by SA Art Viveros of FBI and the interview revealed Christy had no information in regards to Mexicans and their drug activity and Holly Bobo's disappearance. | TBI Command Post                                                                   | Open Routine     |                              |

| 04/16/2011 10:59 | TN0013 | negative information located. He said he woke up at home and took his wife to work between 8-8:30AM. He took her to work at Sonic in Parsons. From there he went to Betty James to pick up some money that she owed him for moving some furniture. Then he went to the Delta gas station and purchased gas and paid with a check. After buying gas he went to pick up Thomas Hurd at Parsons at about 1:30 PM. (Thomas Hurd phone: 731-733-3145.) Then he and Thomas Hurd went fishing at Whites creek all day. Then left Whites Creek and picked up his wife at Sonic at approximately 5:30PM. The only discrepancy, is on the coffee table there was a spiral notebook where someone had written SGNIC Hours, 4/13 10:27AM to 5:05PM. According to the notebook she didn't start work until 10:30 and he says he dropped her off at 8:30. She did say she got to work early that day. Officer McLean knew Nickell's residence was close to the area being searched for Victim Bobo. Jackson Police responded to a call on 07 Apr 11 to 413 West College Street in Jackson, and spoke with FW Marketta Kennedy, who stated she was walking home on College Street and a MW with dark hair pulled up next to her in a blue/green two door car. The car has passed by her a couple of times. MS Kennedy stated stopped and asked her for directions to a tattoo shop and showed her a business card and when Ms. Kennedy leaned in the window to look at the card the MW grabbed her by the wrist and she then saw the MW had his pants pulled down. Ms. Kennedy broke away from the MW and ran home. A photograph of Nickell was obtained and sent to Jackson PD, who showed a Photo Spread to Ms. Kennedy, who identified Nickell as the suspect who grabbed her. USMS and FBI Agents located Nickell at his residence and are conducting an interview. | TBI<br>Command<br>Post | Open   | Routine |

Kee's number is 731-986-8535. Ms. Kee stated that on Wednesday 13 Apr 11 at approximately 21:30 a FW who looked similar to Victim Bobo came to the Sonic in a Gold Dodge Stratus missing a left rear wheel cover. The FW was wearing a blue "Kentucky" tee-shirt. A MB wearing a purple shirt and shorts was a passenger in the Dodge. The FW did not appear to be in distress. SA Pate also spoke with Courtney Smith, a carhop at Sonic, who stated the car was a Silver Dodge Stratus and the FW was wearing a long sleeved Kentucky tee-shirt. The Dodge had a temporary tag in the back window.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | TBI<br>Command<br>Post | Open   | Routine |

Initial contact was made with Bobby Swanner, WM, DOB: 02/14/1962, SSN: 410-21-9947. Swanner had Agents enter the residence and called out to Warner, who was on the computer in a bedroom. Agents immediately noticed that Warner appeared to be severely disabled and required the use of a clutch in order to walk. Agents explained that they were there because of the disappearance of Holly Bobo and because of his familiarity with Bobo's cousin, Natalie Bobo. Warner stated that he had seen information on the news about the Bobo disappearance and though he had never met or spoken with Holly, had previously photographed Natalie. Warner stated that Natalie lives about five miles from                                                                                                                                                                                                                                                                                            | TBI<br>Command<br>Post | Update | Routine |

| <p>his mother in Parsons. Warner stated that he had photographed Natalie last Summer and had not seen her since. He further stated that he was last in Parsons two weeks ago. On 4/12/11, Warner said that he, his father, and Bobby Swamer, who all reside at the Bakerstown Road address, had been home. Swamer confirmed that information. Warner stated he had watched television, was on the internet, etc. A monitor in the residence showed numerous inside and outside surveillance video of the residence. Warner explained that the cameras were in place because his father had Alzheimer's and stated that he could provide video of himself, his father, and Swamer at the residence on 4/13/11. The walls were covered with photographs that he had taken of young women through his "photography business". Agents looked at the photographs, and although many of the females looked as if they might be in their mid to late teens, all of them were fully clothed.</p> |        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                    |        |         |

Allen stated a couple of years ago Patton kidnapped a female, tied her up and held her for a period of time. Allen said Patton injected the girl with Meth. Allen said the girl got loose and was found running down the road naked. SA Terry Dycus and SA Walker interviewed Patton at this home at 9:59 AM on 4/16/11. Patton said his daughter was friendly with the victim Bobo. Patton said his daughter, Brancy Patton, had dated the same boy as Holly had at one time. They became acquaintances through this connection. The boy's name was Lee Barghis. Patton said he figured someone had been stalking her. Patton said he figured Holly was in the woods somewhere or in the bottom of a river. Patton said he was disabled from a severe trucking accident. Patton said he thought this was done by a jealous boyfriend. | TBI Command Post                                                                   | Open   | Routine |

Right height. Spoke, but guy in camo (old time army) gave him a horrible look. Short, reddish brown beard, slender face. Another guy in car. One guy asked if they were going back to the creek which was unusual for turkey hunting at that time of day. Caller probably could recognize him.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | TBI Command Post                                                                   | Open   | Routine |

McAfee stated he played poker with a guy at the Shamrock Bar a couple of years ago. McAfee said the guys name was Dave or David. McAfee said this guy lived either next door to or the next house down from the Bobo's on Show Johnson Road. McAfee said there was a 20 year old girl who came in with her father. McAfee said he could not take his eyes off this girl. He was obsessed with her. Dave is described as 40 years old, 5'10", 200lbs with tattoos all over his body. | 04/15/2011 15:39 | TN0071 | IA Johnson received a call at 3:30 p.m. from Robert Chojnacki at 708-785-3184. Mr. Chojnacki reported he was at Hamah's Casino in Joliet, IL yesterday and spoke with a girl who said her name was Holly and that she looked a lot like Holly Bobo. Mr. Chojnacki was approached by the woman at approximately 2:30 p.m. yesterday outside of the Casino. Holly told Mr. Chojnacki she was 21 years old and 3 months pregnant. Holly also told him she is in an abusive relationship. Mr. Chojnacki said he gave Holly \$20.00 because he felt sorry for her and that she went back into the Casino.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | TBI Headquarters<br>901 RS Gess Boulevard<br>Nashville TN 37218 US<br>800-824-1004 | Open   | Routine   |
| 04/15/2011 15:28 | TN0070 | IA Johnson received a call at 3:25 p.m. from David Brewer at 615-429-5382. Mr. Brewer explained back in 2006-2007 he used to hunt in Parsons, TN. Mr. Brewer wanted to let investigators know there are a lot of hunting clubs across the river and around the area she was reported missing. Mr. Brewer suggested LE might want to look into them if they haven't done so already.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | TBI Headquarters<br>901 RS Gess Boulevard<br>Nashville TN 37218 US<br>800-824-1004 | Open   | Routine   |
| 04/15/2011 15:00 | TN0049 | Joe Upton, FBI - Spoke to Stacy Rice advised that Mitchell left as of last Friday, returned on 4/14/2011. He had a red 1985 Mercury Cougar that was scrapped earlier in the week. He had never mentioned 'Holly' to her. Haven't talked about what has happened. While he was not living with her he was staying with Roger (last name unknown) and Pam Brown. Roger works at Bo's Furniture in Parsons. She said Harold was there on and off. Spoke with Roger, he verified he took Harold on Tuesday 4/12/11 to Lexington, TN to scrap the vehicle. He stayed with Roger Tuesday night. Wednesday, Roger went to work and later mid morning Wednesday Harold was with his cousin (Terry Arnold) at the shop 731-307-8100. He stayed with Terry all rest of Wednesday through Thursday.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | TBI Command Post                                                                   | Update | Immediate |
| 04/15/2011 14:40 | TN0069 | SA Jon Walker - Joe Frye, State Parole Officer in Henry County called on 4/15/2011 at 1223 and reported he was concerned about Jason Nickell possibly being connected to the Bobo disappearance in Decatur County. Frye told me he had seen discussing this incident and he believed Nickell was definitely the type of person who would do something like this. Frye said Nickell had recently been in trouble for stalking a coed. Frye said he would try to get contact information for Nickell.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                    | Open   | Routine   |

| 04/15/2011 13:48 | TN0066 | Victoria Hayes - (731) 549-2183 Home number. Ms. Hayes works in Sporting Goods at the Wal Mart in Lexington, TN. She advised they have had a 4 sales of MRE's this week and she found that very unusual as they usually only sell one or two a year. The number listed is for her home and she will be home after 5p.m. She is currently at the Wal Mart but did not know the store's number.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | TBI Headquarters<br>901 RS Gess Boulevard<br>Nashville TN 37218 US<br>800-824-1004 | Open   | Routine   |
| 04/15/2011 13:43 | TN0065 | At 1:20 pm TBI Charley Dickerson received a call from Remona Carter from Petal, MS at 601-227-1358. Remona believes that Holly Bobo is alive and in the back of a car and is crying. Remona says that she is an evangelist and has prophecies and dreams that sometimes become reality. She said that she does not know the area where Holly Bobo was taken from, but that in her dream there was a reference to a bathroom. She said when she reached for the tissue roll that it would not tear and that it looked like a blue and white striped towel instead of tissue paper...It was rough, like the type you would scratch your back with. She said she does not know what this represents, but felt it might signify is inside of a car. truck, a towel in the trunk, someone's bathroom she (Holly) knew, a bathroom where Holly might have been before or a bathroom inside a building she'd been in. Remona said she trusts her dreams because she had a dream about the 3 children who were drowned in the lake and also of the 2 children whose bodies were found floating down the river in suitcases. She said that she posts her dreams into her website at remonacarter@yahoo.com, for a timeline...however, she said she has not put this dream on her website because it's already been so long since she was taken. She said that if she could speak with someone who is there where the girl was taken from who could tell her about the area, that she feels certain that she would be able to give more information and be of help in finding her. | TBI Headquarters<br>901 RS Gess Boulevard<br>Nashville TN 37218 US<br>800-824-1004 | Open   | Routine   |

| 04/15/2011 12:39 | TN0063 | Sgt Jonathan Johnson - Ms. Jamie Sysma called from 231-858-4246 to give information. When contacted back Ms. Sysma did state that her brother-in-law had been acting strange for the last few months. She states that he would dress in camouflage (military style) and would go into the woods and walk around. She states that he would sneak up on people and found it amusing that he could watch (see) others when they did not see him. She states that he takes medication for mental issues, and believes that he is a patient of Quince Mental Health in Decaturville. Ms. Sysma states that he and her sister are considering divorce at this time. She also states that the two met through the Internet and he may be looking for someone else on the Internet. She states that he is originally from Boston. She states that he usually just walks into the woods near his residence, and does not know of him having an ATV. Ms. Sysma states that when she heard of the incident taking place in Parsons, and the subject possibly wearing camouflage, she thought she should contact us. The information she gave is from telephone conversations with her sister. She has not seen the two for some time. She also states that she does not want the two to know that she called this information in.                                                                                                                                                                                                                                                   | TBI Command Post                                                                   | Open   | Immediate |

| 04/15/2011 12:23 | TN0062 At 10:48 a.m. Admin Asst. Dickerson received a call from Scott Vincent at 814-781-7515. Mr. Vincent stated he called earlier but wanted to add that upon searching Holly Bobo's Facebook pages, he found a "friend" she had named Randy Corlew. Mr. Vincent stated that both the victim and Scott Corlew attended UT Martin College. He also stated that the picture on Facebook showed him in camo and as an outdoorsman. He didn't know if this would be of help, but wanted to let us know what he had found.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | TBI Headquarters<br>901 RS Gass Boulevard<br>Nashville TN 37216 US<br>800-824-1004 | Open   | Routine |                                                                                                                 |
| 04/15/2011 12:16 | TN0059 At approximately 10:30 a.m. LEIC Kershaw received a call from Sonya in Oregon at 503-754-5607. Sonya asked to report information on a suspect, Paul Evans Winkieback, in her daughter's kidnapping. According to Sonya, case has been mentioned on America's Most Wanted 3 times. Sonya explained Winkieback has impersonated Police Officers wearing camo. Sonya reported some details similar to Bobo case. Suspect in her daughter's kidnapping is still on the run and her daughter was able to escape. Det. | 04/15/2011 11:51 | TN0057 LEIC James Byrson received a call from a cab driver in Columbus, OH on the TBI find line at approximately 11:35 a.m. Callan did not provide name but called from # 614-353-8871. Cab driver explained about 2 to 3 evenings ago he saw a car traveling 270 N and a blonde girl looked at him from the car window then a guy looked at her and she turned away. The guy sped away and he could not make out the vehicle TAG. Cab driver reported that the guy had a football build, short clean hair cut, tan complexion. The vehicle was described as a mid 80's Gray Dodge type car.                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | TBI Headquarters<br>901 RS Gass Boulevard<br>Nashville TN 37216 US<br>800-824-1004 | Open   | Routine |                                                                                                                 |
| 04/15/2011 11:35 | TN0056 TN Homeland Security IA Lindsey Johnson received a call on the TBI find line from Janie at 731-888-0240. Janie said she wanted to provide information to SAC John Mehr because she used to go to church with him at Skyline Church of Christ. Janie said Mehr doesn't know her but he did speak to her one day at the Goodwill Store. Janie explained she recently talked to a guy she dated once or twice and that his son's girlfriend knew of Holly Bobo and that her brother did not try to stop the guy from taking her. Janie explained she is not psychic but does have feelings as to what happened to the victim.                                                                                                                                                                                                                                                                                                                                                                                                                            | TBI Headquarters<br>901 RS Gass Boulevard<br>Nashville TN 37216 US<br>800-824-1004 | Open   | Routine |                                                                                                                 |
| 04/15/2011 11:30 | TN0061 Joseph Hudgens & Art Viveros, FBI - interviewed Courtney LeAnn Tanner, 1727 Crawford Road, Decaturville, TN, cell 731-549-0284, DOB 8-17-91, SSN 412-69-6705, Student at UTM-Parsons, sophomore majoring in education, knows Holly through growing up with her and through church Corinth Baptist Church in Darden. She had a Wednesday class 0930 english composition approximately 5 minutes late due to sleeping in. She stated she did not have any classes with Holly. Can't think of any one who would hurt Holly. She did notice a creepy guy in a white van that wore glasses waiting for someone at the school, in his late 20s approximately 5'10" and he would sometimes wait in the student lounge with a small laptop and play the game bejeweled. Chantey Pearty who works for Dr. Phillips in Parsons relayed to her that an older gentleman in a gray beard asked with camo pants came up to Pearty's house and asked her if they needed any brush cleared from the property. Hudgens will follow up on Chantey Pearty's description. | Decatur County                                                                     | Open   | Routine |                                                                                                                 |
| 04/15/2011 10:45 | TN0060 Joseph Hudgens & Art Viveros, FBI - interviewed Travis Eugene Hemby Volner, 68 Beasley Loop, Linden, TN DOB 7-21-91, SSN 411-69-3490, Nursing student at UTM-Parsons. Lives with his father, Kenny Volner, sophomore, class on Wednesday from 0930 to 1045 (english comp) approximately 5 minutes late because he overslept. Father can verify he was at home. He did not have a class with Holly, but he knew her through school and spoken to her a few times at UTM-Parsons. Last time talked to her was a scholarship banquet in 2009 where they both won a \$1000 scholarship. Has known her for 6-7 years. Father's cell 731-549-4336. He couldn't recall anyone who would have wanted to hurt Holly or had an obsession with her. Story seems credible.                                                                                                                                                                                                                                                                                        | TBI Command Post                                                                   | Open   | Routine |                                                                                                                 |
| 04/15/2011 10:38 | TN0052 LEIC Allen spoke with Deputy at Blount Co. Alabama Sheriff's Department. He advised that a formal report has not been filed by the victim. Investigator Mitch Latta with The Oneonta Alabama Police Department has received an email on the incident and was looking into it. The number for the department is 205-625-4351. The subject did not actually approach the female and followed the female from Wal Mart in town and was harassing her as she drove from Wal Mart. A description was not available from the victim according to the deputy because of it being dark.                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | TBI Headquarters<br>901 RS Gass Boulevard<br>Nashville TN 37216 US<br>800-824-1004 | Update | Routine | Oneonta AL PD                                                                                                   |
